Preamble

1 Area of validity

- 1.1 Our General Terms and Conditions of Purchase (“General Terms”) shall apply exclusively.
- 1.2 We shall not accept any general terms used by the supplier that contradict or deviate from ours unless we have given our express written consent to their validity. Our General Terms shall apply even if we have been informed of any general terms used by the supplier that contradict or deviate from ours and still accept the delivery without reservation.
- 1.3 Our General Terms shall only apply towards entrepreneurs governmental entities and special governmental estates under public law within the meaning of § 310 par. 1 BGB (German Civil Code).
- 1.4 These General Terms shall also apply as a framework agreement to all future contracts with the same supplier without having to refer to them again in each individual case. However, this does not apply, if we change these General Terms; in this event, we will inform the supplier separately.

2 Conclusion of contract and offer documentation

- 2.1 We shall be entitled to withdraw our order unless the supplier accepts it within one week from receipt and sends us the appropriate confirmation of order.
- 2.2 The confirmation of order shall show the product designation, price, rebate, delivery quantity, binding delivery date, and all the numbers and symbols from our order.
- 2.3 The supplier shall make no charge for submitting offers, draft designs, or samples to us and shall place us under no obligation thereby.
- 2.4 In the absence of any agreement to the contrary, no remuneration or compensation shall be granted for visits or for the preparation of offers, projects, etc.
- 2.5 We shall be entitled to require technical modifications and/or changes to the delivery date within the limits that the supplier can reasonably be expected to accept. Any consequences regarding an increase or decrease in costs or the delivery date shall be settled by mutual agreement.
- 2.6 We shall reserve the right of ownership of all illustrations, drawings, calculations, and any other proposals. The same applies for our copyright, provided the documents are subject to copyright protection. They shall be used exclusively for production on the basis of our order and shall be returned to us free of charge, whether we have requested them or not, as soon as the relevant transactions have been completed. They shall be kept secret from third parties. The supplier has no right of retention on these documents.

3 Prices, invoices, and terms of payment

- 3.1 All prices shall be defined as “carriage paid” to the delivery address given to us including statutory VAT and packing, but we shall have the right to select the type of packing, the means of transport, and the transport route and insurance.

- 3.2 If premature consignments are accepted the due-date for payment shall be based on the agreed delivery date. If the goods have been invoiced but arrive later than the invoice, the date of receipt of goods shall be deemed to be the invoice date.
- 3.3 Attention is hereby drawn to our delivery regulations with regard to the correct and proper procedure for invoicing.
- 3.4 Unless anything to the contrary has been agreed, payments shall be made at our discretion either by credit transfer or by cheque within 14 days of receipt of invoice with a 3-percent prompt-payment discount or net within 30 days. This period of time shall not start to run until the supplier has fulfilled his obligations completely.
- 3.5 Invoices shall be sent to us as a single copy and separately from the goods. Every invoice shall state the number and date of the order. Invoices that are not issued in the required manner shall not be regarded as having been issued.
- 3.6 If goods or services could be delivered free of VAT the supplier shall be under an obligation to submit the necessary substantiation or alternatively to co-operate in obtaining it. For deliveries within the European Union the supplier shall state his VAT identification number and substantiate his capacity as a businessman as well as co-operating in providing the booking and voucher substantiation that the goods have been exported.
- 3.7 We are entitled to withhold due payments to an appropriate extent as long as we are still entitled to claims for incomplete or defective performance against the supplier; twice the costs required to remedy the defect shall normally be considered reasonable. The making of payments, on the other hand, shall not be construed as acknowledging that the consignment was in conformity with the contract.
- 3.8 The supplier shall not be entitled to assign his claim for payment against us or to arrange for any third party to collect it unless we have given our prior written consent, which we will not withhold arbitrarily. This consent shall be deemed to have been given in the case of extended retention of title.
- 3.9 The Supplier has a right of set-off and/or of retention only on the basis of counter-claims which have been finally and conclusively established or are undisputed or are ready for judgment in pending legal proceedings.

4 Delivery period and arrears of delivery

- 4.1 Agreed delivery periods and dates shall be binding. The delivery period or date shall be deemed to have been met if the goods arrive at the place of reception or use that we have designated. If delivery "free at works" has not been agreed, the supplier shall provide the goods far enough in advance to allow for the usual loading and despatch time.
- 4.2 Our delivery call-offs shall become binding if the supplier has not raised any objection within three business days of receiving them.
- 4.3 If the supplier realises that an agreed delivery date cannot be met for any reason whatsoever he shall inform us without delay and in writing, stating the reasons and the duration of the delay. However, this shall be without prejudice to the responsibility of the Supplier to deliver within the agreed deadlines and periods.

- 4.4 In the event of arrears of delivery we shall be entitled to charge a contractual penalty of 1% of the value of the order for each full week of delay, subject to a maximum of 5%. We reserve the right to raise statutory claims over and above this penalty. We shall be under an obligation to declare no later than upon payment of the invoice that we are withholding the penalty amount.
- 4.5 The provisions according to Clause 4.4 are without prejudice to our statutory claims and rights in the event of a delay in delivery.
- 4.6 Force majeure, industrial disputes, or other ineluctable or unforeseeable events shall absolve the supplier from his obligation to supply only for the duration of the difficulties and to the extent that they affect him. The supplier shall be under an obligation within the limits that he can reasonably be expected to accept to provide the necessary information and to adapt his obligations to the changed circumstances to the best of his ability and in all good faith. We shall be absolved of the obligation to accept the goods and/or services that we have ordered, in their entirety or in any part or parts, and to this extent to cancel the contract, if the goods and/or services are of no further use to us, taking all commercial aspects into account, because of the delay that such circumstances have caused.
- 4.7 If goods are delivered earlier than agreed we shall reserve the right to send them back at the supplier's expense. If such goods are not sent back they shall be stored on our premises until the agreed delivery date at the supplier's expense and risk.

5 Delivery, transfer of risk, and packing

- 5.1 We shall only accept part-consignments if they have been expressly agreed. If part-consignments are delivered they shall be accompanied by a list of the remaining quantities.
- 5.2 The goods shall be accompanied by a single copy of a delivery note stating not only the identity of the goods but also the type quantity of each article and our exact order data. Should the supplier omit any of this information, delays in processing will be unavoidable and we will not be required to bear the consequences.
- 5.3 Risk shall be transferred at the delivery address that we state.
- 5.4 Unless anything to the contrary has been agreed the goods to be delivered shall be packed properly and professionally in the manner that is customary in the trade. The packaging material shall comply with the relevant packaging ordinance in force at the time.
- 5.5 The place of execution within the meaning of Article 4 of the Packaging Ordinance and in relation to the supplier's obligation to take the goods back shall be the place where the goods are handed over.
- 5.6 If packaging is charged for but can be reused its full value shall be credited when it is returned. The credit note shall always be submitted as one copy and shall identify the invoice on which the packaging was charged.

6 Certificate of origin

- 6.1 If the goods that the supplier produces for us are required for export, the supplier shall be under an obligation to make a written declaration on our prescribed pre-printed form on the origin of the goods for customs purposes. This declaration shall be sent to us no later than with the first consignment.

- 6.2 The supplier shall inform us without delay and without waiting to be asked about the origin of newly included goods or any change of origin. The supplier shall be liable for any disadvantages that we may suffer through any delay or error in submitting any such declaration in its proper form. If necessary the supplier shall substantiate his data on the origin of the goods by means of an information leaflet confirmed by his local customs office.

7 **Quality and documentation**

- 7.1 All goods and/or services that the supplier supplies shall represent the latest state of the technical art and comply with safety regulations, the agreed technical specification, the relevant legal regulations, and all and any regulations and guidelines published by the authorities, industrial workers' safety co-operatives, and industrial associations. If deviations are necessary in any individual case, the supplier must first obtain our written consent.
- 7.2 The supplier must comply with the VDA (German Association of the Automotive Industry – Verband der Automobilindustrie) publication "Securing the quality of deliveries in the motor industry – assessment of suppliers and inspection of first samples", Volume 2, with regard to the inspection of first samples. Regardless of this, the supplier shall constantly monitor the quality of the goods he supplies. The parties to the contract shall keep one another informed about possibilities for improving quality.
- 7.3 If the type and scope of the inspections and the inspection equipment and methods have not been firmly agreed between the supplier and ourselves, we will be prepared, if the supplier so requests and with all due regard to his knowledge, experience, and possibilities, to discuss the inspection with him and to investigate the necessary level of inspection technology.

In all cases, our complaint (notification of defects) shall be deemed immediate and timely if it is made within ten business days. In all other respects, the Supplier hereby waives the objection of delayed notification of defects.
- 8.3 In the event of any defect we shall be entitled to our unabridged statutory rights. Unless otherwise agreed, the place of subsequent performance shall be the specified place of use.
- 8.4 If the supplier falls into arrears in supplying a replacement or rectifying the defect, we shall be entitled to make the replacement purchase ourselves or to rectify the defect or to arrange for this to be done by a third party but in any case at the supplier's expense. The same shall apply when the matter is urgent and the supplier cannot be contacted in time or is unable to carry out the rectification work or supply the replacement in time.
- 8.5 Claims based on physical or legal defects shall become statute barred 36 months from the date of transfer of risk Upon receipt by the Supplier of our written notification of defects, the limitation period for claims for defects shall be suspended. After replacement or repair of the

defective good, the period of limitation for replaced or repaired parts shall recommence, unless we had to assume due to the Supplier's conduct that the Supplier did not acknowledge any obligation to subsequent performance but only carried out the replacement or repair of the defective good as a gesture of goodwill or any similar reasons.

The foregoing shall not affect any other statutory rights.
